

## 100 Reasons You Will Lose the Next Boat Sale

## Real-World Refueling Issues Reported by U.S. Boat Owners

Vessel Type	Symptom	Quote
Cabin Cruiser	Vent clog	It takes forever to refuel—can't go full speed at the pump.
Bay Boat	Fuel odor post-refuel	I have to hold the nozzle upside down to get it to flow.
Bay Boat	Blow-back through vent	If I try to fill fast, it just blows back and makes a mess.
Center Console	Slow fill	Feels like the fuel gets trapped—slowest 20 gallons I've ever pumped.
Dual Console	Blow-back through vent	Even at slow speed, I get backsplash from the vent.
Pontoon Boat	Tank pressurization	I have to hold the nozzle upside down to get it to flow.
Pontoon Boat	Spit-back	Feels like the fuel gets trapped—slowest 20 gallons I've ever pumped.
Pontoon Boat	Premature nozzle shut-off	Boat smells like gas for hours after fueling up.
Dual Console	Tank pressurization	Only way to fill is super slow trickle—crazy annoying.
Walkaround	Overflow from fill	Even at slow speed, I get backsplash from the vent.
Cuddy Cabin	Slow fill	If I try to fill fast, it just blows back and makes a mess.
Bowrider	Fuel odor post-refuel	Vent line gets clogged or something, can't get gas in without it spitting.
Bay Boat	Vent clog	After refueling, the engine won't start—vapor lock every time.
Deck Boat	Tank pressurization	Fuel expands and leaks after filling, especially in the sun.
Walkaround	Vapor lock	It takes forever to refuel—can't go full speed at the pump.
Deck Boat	Vapor lock	Even at slow speed, I get backsplash from the vent.
Walkaround	Fuel leak during refuel	Feels like I need a degree in fluid dynamics to fill this tank.
Dual Console	Spit-back	It takes forever to refuel—can't go full speed at the pump.
Walkaround	Vent clog	Overflowed all over the deck even though the tank wasn't full.
Center Console	Blow-back through vent	Refueled yesterday, and today I've got gas dripping out the vent.
Runabout	Spit-back	Boat smells like gas for hours after fueling up.
Bay Boat	Spit-back	Feels like I need a degree in fluid dynamics to fill this tank.
Pontoon Boat	Overflow from fill	Why is it that no matter what, refueling feels like a gamble?
Cabin Cruiser	Premature nozzle shut-off	Vent line gets clogged or something, can't get gas in without it spitting.
Walkaround	Premature nozzle shut-off	Feels like the fuel gets trapped—slowest 20 gallons I've ever pumped.
Dual Console	Vapor lock	Refueling at the dock is a nightmare—gas sprays back out.
Runabout	Slow fill	Vent line gets clogged or something, can't get gas in without it spitting.
Center Console	Slow fill	After refueling, the engine won't start—vapor lock every time.
Runabout	Overflow from fill	Fuel expands and leaks after filling, especially in the sun.
Walkaround	Vent clog	Pump keeps clicking off like it's full, but it's not even halfway.

Pontoon Boat Overflow from fill Overflowed all over the deck even though the tank wasn't full.  Center Console Premature nozzle shut-off Redueled yesterday, and today I've got gas dripping out the vent.  Premature nozzle shut-off The pump nozzle constantly clicks off—takes 15 minutes to top off.  Dual Console Overflow from fill Tank pressurizes and whistles before I even start fueling.  Cabin Cruiser Fuel odor post-refuel Redueled yesterday, and today I've got gas dripping out the vent.  Bowrider Fuel odor post-refuel Redueled yesterday, and today I've got gas dripping out the vent.  Bowrider Vent clog Refueled yesterday, and today I've got gas dripping out the vent.  Bowrider Vent clog Vent line gets clogged or something, can't get gas in without it spitting.  Bay Boat Fuel leak during refuel Pump keeps clicking off like it's full, but it's not even halfway.  Cuddy Cabin Overflow from fill Feels like I need a degree in fluid dynamics to fill this tank.  Bowrider Premature nozzle shut-off Reducing at the dock is a nightmare—gas sprays back out.  Blow-back through vent Feels like I need a degree in fluid dynamics to fill this tank.  Cuddy Cabin Premature nozzle shut-off Peels like I need a degree in fluid dynamics to fill this tank.  Cuddy Cabin Vent clog The pump nozzle constantly clicks off—takes 15 minutes to top off.  Dual Console Premature nozzle shut-off Every time I fill past ¾, I get a strong fuel smell in the cabin.  After refueling, the engine won't start—vapor lock every time.  Walkaround Tank pressurization Refueled yesterday, and today I've got gas dripping out the vent.
